

COBBLE HILL SEWER

Cobble Hill Village Sewer System Integration

Following a successful grant funding application, the CVRD is continuing work on the 'Cobble Hill Sewer System Integration' project. This project will join two existing CVRD-operated sewer systems, Twin Cedars Sewer System and Cobble Hill Sewer System, into one system named Cobble Hill Village Sewer System. The project will provide customers of the system with long-term, cost effective, high quality wastewater treatment and allow for the expansion of the effluent re-use for irrigation in community parks. New rates will apply as a result of combining the two systems.

For more information on this project please visit the CVRD website at www.cvrld.bc.ca/utilities

AFFORDABLE HOUSING

CVRD Launches Affordable Housing PlaceSpeak Topic

The Cowichan Valley Regional District (CVRD) has launched a new PlaceSpeak topic aimed at spurring discussion around the issue of affordable housing in the Cowichan region.

The CVRD Board is considering an annual financial contribution to the Cowichan Housing Association to assist with creating more affordable housing.

PlaceSpeak provides a single stop for residents to engage with the issues that directly impact their communities, and offers an alternative for busy people to engage with the issues.

Visit placespeak.com to sign up for a free account. If you already have an account, go to www.placespeak.com/cvrldaffordablehousing to join the discussion.
