

## SEWER INTEGRATION

### Cobble Hill Village Sewer System Integration

Following a successful grant funding application, the CVRD is continuing work on the 'Cobble Hill Sewer System Integration' project. This project will join two existing CVRD-operated sewer systems, Twin Cedars Sewer System and Cobble Hill Sewer System, into one system named Cobble Hill Village Sewer System. The project will provide customers of the system with long-term, cost effective, high quality wastewater treatment and allow for the expansion of the effluent re-use for irrigation in community parks. New rates will apply as a result of combining the two systems.
